

District 25 Duals

The purpose of these duals allow all the teams of District 25 to have a chance to dual all of the other teams in the district at a minimal cost for transportation due to the geographical range with in the district. To allow for some of the teams to dual local area teams at home, 3 extra out of district teams have been brought in to fill holes in the schedule and to allow everyone to get 5 duals. The format is simple. There will be 2 groups of 5 teams; where every team in group A will dual every team in group B. No team in group A will compete against the other Group A teams.
